Product Range Guide
MICRO SWITCH Hazardous Area Switches

## Rugged. Reliable. Ready for use.

Honeywell has a complete family of hazardous area limit switches tailored to exact specifications for superior performance, extended productivity and increased safety.
Reduce operational and maintenance costs with Honeywell's hazardous area limit switches.
Reliable and robust, these flexible switches are designed for a wide range of industrial applications, from mud pumps, valve positioning and pig position detectors to gate/door monitoring, conveyors and many more. Count on Honeywell for global support, exceptional

## Designed to endure the toughest applications

Features highlighted below relate to the MICRO SWITCH'BX, LSX, GSX, and CLSX Series
Sintered, bronze bearings enable longer operating life and increase resistance in corrosive environments

## 14CE100:

smallest available
0.5 in or 0.75 in conduit options
Field adjustability of operating head matches switch to application

Boss-and-socket head design for more secure $\bullet$ head-to-body retention

Twin shaft seals for improved - environmental protection. Optional fluorosilicone seals extend operating temperature down to $-40^{\circ} \mathrm{C}\left[-40^{\circ} \mathrm{F}\right]$

Two flame paths - one in the cover-housing threads; another between the switch cavity and head

- Cover o-ring seal maintains NEMA and IP environmental sealing for the switch cavity
 footprint with $x$ ? pre-leaded cablé

## BX Series

A global history of rugged performance in explosive environments and a broad portfolio of options to meet your needs

- Choice of aluminum or stainless steel housings for use in non-corrosive and corrosive environments
- Designed for use in the toughest climates $\left(-40^{\circ} \mathrm{C}\right.$ to $70^{\circ} \mathrm{C}$ [-40ㅇ to $158^{\circ} \mathrm{F}$ ])
- Silver contacts available for switching power loads and gold contacts for switching low-power loads
- Mounting pattern is interchangeable with the iconic HDLS MICRO SWITCH platform
- Multiple actuator \& switching combinations are available

## LSX Series

Weather-sealed product for operation in explosive environments in North America

- Silver contacts available for switching power loads and gold contacts for switching low-power loads
- Mounting pattern is interchangeable with the iconic HDLS MICRO SWITCH platform
- Optional availability for use in low temperatures (-40 ${ }^{\circ} \mathrm{C}$ [-40 F$]$ )
- Multiple actuator \& switching combinations are available

## GSX Series

Combines proven MICRO SWITCH global safety limit switch product with an explosion-proof design to create a hazardous area safety switch

## (1) <br>  <br> IEC ECOT I

- Designed to ensure that even welded contacts will open and machine will stop in emergency situations
- SIL 3 rating for use in safety applications
- Switching contacts with positive break
- Optional gold contacts for switching low-power load
- For use on gates, cages, panels, and other applications requiring a machine to stop in an emergency

## CLSX Series

Cable-pull switch designed for emergency stop protection in explosive environments
(41) (1).

- Cable lengths may be 200 ft in straight line
- Positive opening of normally closed (NC) contacts
- For use with conveyors, perimeter guarding and more

## APPLICATIONS

- Control valves and actuators
- Gate position detection
- Grain handling equipment
- Mining conveyors
- Mud pumps
- Offshore drilling
- Oil and gas drilling rigs
- Paint booths
- Pulp and paper coating
- Valve position monitoring
- Waste treatment

Honeywell

## MICRO SWITCH Hazardous Area Switches I BX, BX2, and LSX Series

|  | Actuator Modification |  | Actuator Options |
| :---: | :---: | :---: | :---: |
| 1 | cW rotation | 1A* | Fixed $\varnothing 0.75$ in $\times 0.25$ in W nylon roller, front mount |
| 2 | ccW rotation | 1C* | Fixed $\varnothing 0.75$ in $\times 0.25$ in W nylon roller, back mount |
| 3 | Right-oriented actuator head assembly | 2A* | Adjustable, $\varnothing 0.75$ in $\times$ 0.25 in W nylon roller. front mount |
| 4 | Left-oriented actuator head assembly | 2C* | Adjustable, $\varnothing 0.75$ in $\times$ 0.25 in W nylon roller back mount |
| 5 | Head assembled with actuator to mounting surface | 2J | Adjustable, $\varnothing 1.0$ in $\times$ 0.5 in W nylon roller, front mount |
| 6 | Roller perpendicular to mounting surface | 2K | Adjustable, $\varnothing 1.0 \mathrm{in} \times$ 0.5 in W nylon roller: back mount |
| 8 | Roller parallel to mounting surface | 3 S | Yoke $\varnothing 0.75$ in $x$ 0.25 in W nylon rollers same side, back mount |
|  |  | 4M | Hub rod aluminum |
|  |  | 5A | Offset, $\varnothing 0.75$ in x 0.25 in W nylon roller back mount |
|  |  | 5C | Offset, $\varnothing 0.75$ in $x$ 0.25 in W nylon roller front mount |
|  |  | 7A | Plastic wobble stick |
|  |  | 8A | Cat whisker, 5.5 in |

To order high temperature versions, insert the additional letters $\mathbf{Y}$ and $\mathbf{C}$ in the appropriate places in the standard catalog listing, as shown below:

| BXA3K | standard, side-rotary plug-in switch |
| :--- | :--- |
| BXYAC3K | completely FC-sealed version of <br> BXA3K |

$\Delta$ Not available with conduit code 4.

* BX2 stainless steel "head styles" and "actuators" available

Levers for Side Rotary Actuated Switches

## CX Series

Weather-sealed, explosion-proof switch designed for outdoor use in hazardous atmospheres

- Ability to monitor quarter-turn and linear valve position
- Automates existing, non-automated valves
- Pin plunger and side-rotary versions
- Hermetically sealed elements available
- Housing available in short and standard lengths
- Available with analog 4 mA to 20 mA output and/or discrete switching capabilities
- Optional gold contacts for switching low-power load
- Up to six NC and six NO contacts

## EX Series

The original hazardous area MICRO SWITCH with the largest installed base

- Mounts from any of four sides
- Hermetically sealed elements available
- Option for two conduit openings
- Variety of levers and actuators
- Optional gold contacts for switching low-power load
- High temperature versions available $\left(204^{\circ} \mathrm{C}\left[400^{\circ} \mathrm{F}\right]\right)$

## 14CE100 Series

Gang-mounting capability adds to application design flexibility for smaller machines and instruments Ex

- Use where limited space is available
- Available with pin and roller plunger actuators
- Pre-leaded to minimize installation and procurement costs
- Optional gold contacts for switching low-power load

## GXS Series

Compact, pre-leaded switch with DIN-sized body

$\square$ ECOX

- EN 50047 mounting compatible (GXE Series)
- EN 50041 mounting compatible (GXA Series)
- Double insulated switch cavity provides a second layer of electrical circuit protection
- Pre-wired; variety of heads, levers, and actuators
- Compact footprint for use where space is limited

## MICRO SWITCH Hazardous Area Switches | 14CE100 Series

## VPX Series

Valve position indicator designed for outdoor use in hazardous atmospheres

- Certified for ATEX, IEC Ex, CE, and cULus specifications for global applications that requires protection from explosive gases, vapors \& combustible dust
coming soon: NEPSI and KOSHA certifications
- Die-cast aluminum housing and various sealing (NEMA $4,4 \mathrm{X}, 6$, and 13), certifies the VPX Series is rated for rain, wind, snow, ice and blowing dust environments
- Wide operating temperature range from $-40^{\circ} \mathrm{C}$ to $80^{\circ} \mathrm{C}$
- Versions of the VPX with proximity switches carry an Intrinsically Safe (IS) rating
- Well suited for up to 500,000 actuation cycles
- Available in multiple indicator colors that is visible from all directions

## APPLICATIONS

- Seaside grain and duel loading docks
- Oil and gas wells
- Refineries
- Fuel storage facilities
- Mining
- Petrochemical and chemical plants
- Waste water treatment facilities
- Oil and gas production pipeline networks
- Paint batching/blending plants
- Pharmaceuticals and drug processing plants
- Food and beverage industries
- Pesticides manufacturing plants
- Textile dyeing and finishing plants
- Lead acid battery manufacturing facilities

## There's an advantage for taking the bold step. For seeing the possibilities. And seizing the opportunity.

At Honeywell, we work hard to lead the way. To develop technologies that are ahead of the curve. To deliver solutions that anticipate your needs. And sometimes that innovative mindset allows you to be the market leader. That's why MICRO SWiTCH switches are the leading electromechanical switch brand on the market.

And you can rest assured, Honeywell switches are the right product at the right time to help you maximize efficiency and minimize cost. Because it's a Honeywell product, backed by world-class service and support.

## Part Innovation. Part Engineering. Total Solutions.

## MICRO SWITCH Hazardous Area

## Potential Applications

- Control valves
- Conveyors and grain elevators
- Maintenance equipment
- Material handling
- Off-shore drilling
- Paint booths
- Petrochemical and waste treatment plants
- Pipeline valves

## Warranty/Remedy

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective. The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While Honeywell may provide application assistance personally, through our literature and the Honeywell web site, it is customer's sole responsibility to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this writing. However, Honeywell assumes no responsibility for its use.
